

Glacier Filtration is a leading specialist in filtration & water treatment equipment and systems for complete sustainable water management.

GRP Pump Strainers

Constructed from GRP (Laminated Polyester reinforced with Fibreglass), Glacier’s GRP Pump Strainers are for installation prior to your pump to avoid entrance of unwanted objects and particles into your pump system.

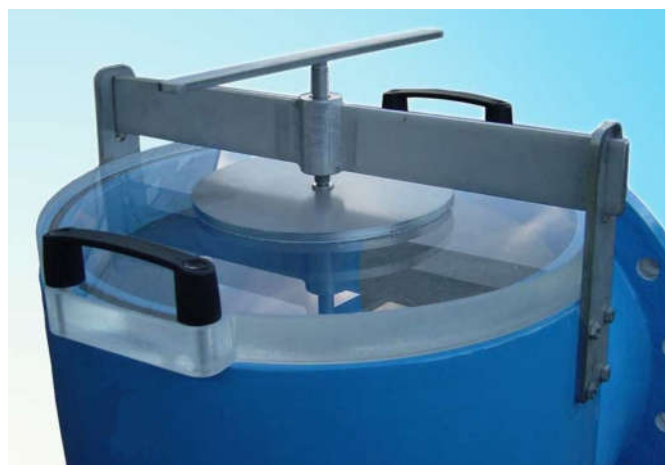

Fitted with a fast opening device to allow easy access to remove and empty the strainer as required. The GRP Pump Strainers are available in different configurations, pressure and designs to meet any application.

GRP Pump Strainer Features:

- Basket sizes from 4L – 75L capacity
- Transparent lid and easy to open
- Basket hole diameters from 2mm – 4mm
- Flanged or Threaded connections available
- Connection sizes on customers request
- Pump Strainer made from Laminated Polyester
- Basket made from 304/316 Stainless Steel (options)
